Why **THINKWARE DASH CAM**™ ?

THINKWARE brings a whole package of reliable value-added features that you can't find in other dash cams.

With these advanced features, THINKWARE Dash Cams promise a better and safer driving experience.

Drive Safe with **THINKWARE DASH CAM**™

•Road Safety Warning Systems

Forward Collision Warning System (FCWS)
Alert drivers when approaching too closely to the vehicle ahead to avoid collision

Lane Departure Warning System (LDWS)
Alert drivers when swerving out of lane

Front Vehicle Departure Warning (FVDW)
Inform drivers when vehicle ahead is moving off

Safety Camera Alert
Manage your speed by knowing the location and distance to the red light and speed cameras.

DUAL SAVE™
Secure internal memory back-up during intense impact

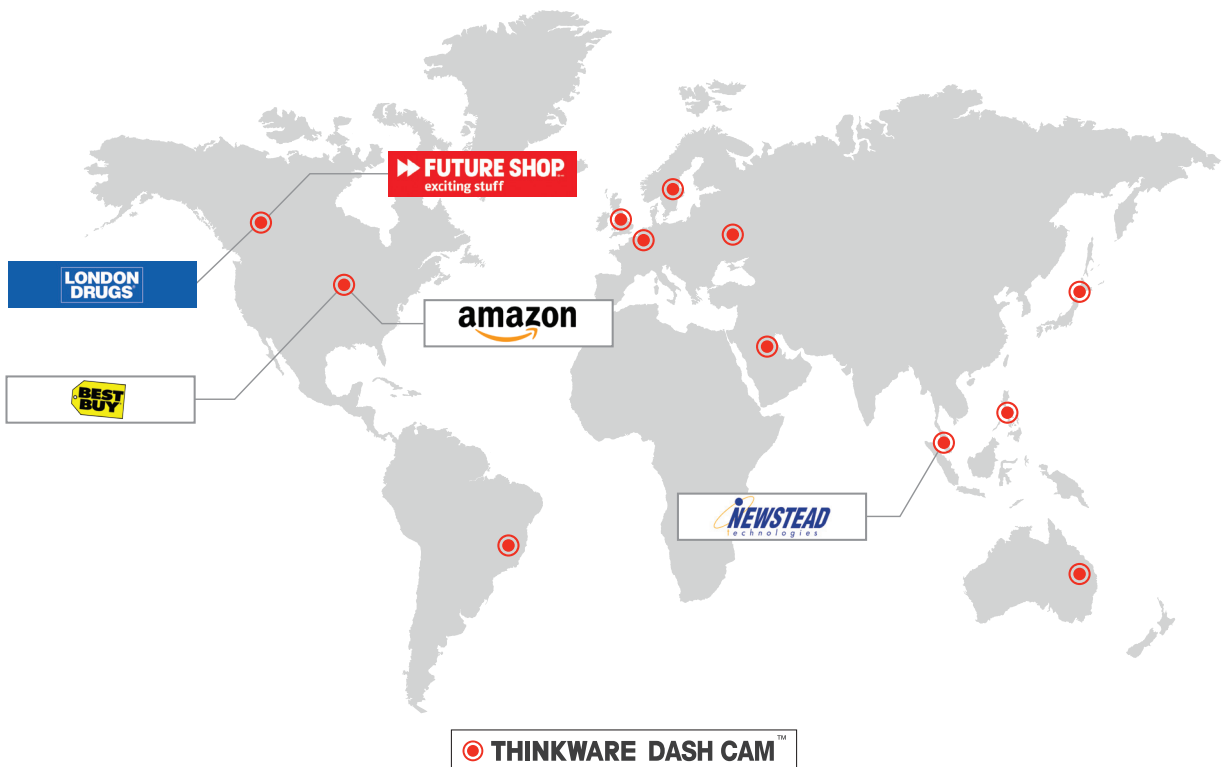

Wi - Fi
Wi-Fi connectivity to smartphone application (iOS and Android compatible)

Super Capacitor Technology
Battery alternative for fail-safe operation under extreme temperatures

Thermal Protection Mode
Integrated thermal sensor to trigger automatic self-protection mode

ABOUT **THINKWARE**

Thinkware Systems Corporation is the leading provider of location-based services and Innovative Smart Car IT since 1997, gaining strong foothold in Korea to be the preferred choice of local consumers. Thinkware continues to advance and provide smart platform services ranging from car navigation and dashboard cameras to education tablets. Today, we are a global IT total service provider, bringing our know-how to over 800 cities worldwide such as London, New York, Sydney, Toronto and Singapore. Putting our customers first, Thinkware is committed to improving lives everywhere by bringing to you comfort and convenience through Life Innovation.
